The screenshot displays the vRealize Automation Service Catalog interface. At the top, the navigation bar includes 'Home', 'Catalog', 'Items', 'Requests', 'Inbox', 'Design', 'Administration', 'Infrastructure', and 'Containers'. The user is logged in as 'jelzein@mgmt.local'. The main content area is titled 'Service Catalog' and shows a grid of service templates under the heading 'All Services - BG-DevTeam'. Each template card includes an icon, a title, a brief description, and a 'Request' button. The templates listed include: alpine (docker), busybox (docker), Docker - CoreOS, Docker - PhotonOS, drupal (docker), httpd (docker), LAM-Java Stack, LAMP Stack with LoadBa..., mongo (docker), mysql (docker), nginx (docker), postgresSQL (docker), redis (docker), registry (docker), swarm (docker), Ubuntu 14.04 Base, ubuntu (docker), Windows 2012 R2 Base, Wordpress 4.3 Multi-Tier..., and Wordpress Hybrid "2.5" A.. A sidebar on the left provides navigation for different service categories like AD Services, Azure Services, Container Hosts, Containers, Hybrid Apps, IaaS Services, NSX Services, and PaaS Services. The footer contains copyright information for VMware and the version number 7.2.0.
